

This housing is designed to allow HSP Cartridge Valves to be used in “In-Line” applications, 2-port and 3-port housings are available. Threaded ports are provided for pressure and return line connections and for pilot connections where appropriate. A single mounting hole allows secure attachment of the housing/valve assembly to bulkheads etc.

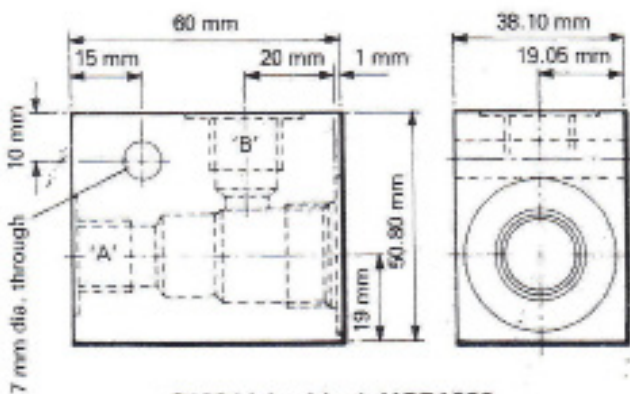

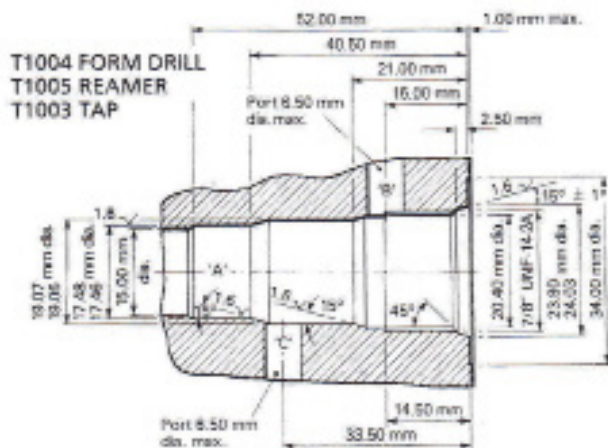

- Working pressure up to 350 bar
- For HSP 7/8" SAE cartridge valves
- 3/8" BSP ports
- C100 2 port cavity
- C200 3 port cavity

PART CODE:	HOUSING
HSP1619	3 PORT
HSP1620	2 PORT

C200 Valve block HSP1619
3 ports 3/8" BSPF

C100 Valve block HSP1620
2 ports 3/8" BSPF
